Dear Donald:

You had promised to let me hear from you by today about your plans for the coming season, whether or not you would report to The Eagles.

The team left for camp Saturday, and we open the season in Philadelphia May 4th. This means the members of the club have just a month to get in condition.

Any member reporting late will have to spend at least three weeks getting into condition before his salary will start.

I will be expecting to hear from you by return mail.

Very Truly Yours
